

# INFINITY

GALEON | 53FT | 2020

## OVERVIEW

Infinity lives up to its name. The 2020 Galeon 500 FLY earned awards for innovation, and time on board reveals why. From the generous flybridge to the intelligently designed staterooms, this 53-foot yacht anticipates how you'll actually use the space. The engineering serves a purpose: creating environments where groups gather naturally and privacy remains available when desired.

What distinguishes this luxury yacht charter is the attention to livability. Large windows frame the water views, social areas flow without wasted transitions, and the craftsmanship evident in details suggests a builder confident in their approach. The unique features aren't gimmicks; they solve real problems that arise during extended time on the water.

For families or groups seeking a Miami yacht rental that accommodates varied interests without feeling compromised, Infinity delivers.
